## **Australia Semester Program Fees** **Semester 2, Fall 2018**

Prepared Sept 15, 2017

Updated June 26, 2018

### ***No Hidden Fees.***

***Tuition/Program Fees*** - include the arts and social science tuition charged by the host university for four subject course load . However, Australian universities charge extra tuition if students exceed a normal course load and/or charge a higher tuition for disciplines such as science, engineering and other specialty areas involving laboratory, studio, or field work. Since these extra tuition fees apply to very few students, and are not known until after registration, they are not included in the published program fee. They are billed separately after classes have been in session for several weeks and all enrollments are finalized. In these situations, students will receive an invoice from either The Education Abroad Network or the host institution.

***Housing Cost*** - TEAN provides an extensive list of housing options for our participants. Please consult our web site and your TEAN Program Manager for specific details on each housing option including the range of housing costs. Please take note of the inclusions as many of the housing options include items that other programs exclude.

***Meal Plans*** - the cost of meals is not included in the program fees listed above. Some housing options (particularly on-campus) require a mandatory meal plan that will be billed separately by The Education Abroad Network or the host institution. Meal plan costs range from \$1,500 - \$3,000 depending on the number of meals provided. Please consult your TEAN Program Manager for information on meal plan availability, costs, locations where they are mandatory and when they are invoiced.

***Housing Deposits*** - All participants residing off-campus are required to pay a \$350 housing deposit in addition to the Program Fee. This fee is refundable at the conclusion of the program, less any damages, fines or outstanding debts. Most security deposits actually range in cost from \$700 to \$1,500 so we fund a large portion of this deposit as a courtesy. This ultimately means less funds you need to pay upfront and the convenience of dealing with a USA based organization for your refund. Students living in on-campus accommodation may be subject to a housing security deposit of lesser or greater value. In most instances this deposit will be refunded directly from the university to the student at the end of the semester less any damages.
