Why just read about different ecosystems and natural features when you can experience them yourself?

A study abroad experience allows you to discover the natural environment of your host destination and how the local community engages with their surroundings.

Whether you are looking for summer programs specifically designed around environmental studies coursework and experiences, or you are seeking courses through our host university partners that introduce environmental issues from a different cultural perspective, TEAN has a suite of programs designed to meet your academic goals.

Push your engagement with environmental learning and awareness even further by choosing to participate in TEAN's Choose Earth Certificate program!

Are you looking for specific courses? Visit teanabroad.org/course-finder and we can help you find the program that meets your academic goals and course needs.

Get hands-on experience abroad

An international internship through TEAN can help you stand out in the increasingly competitive job market. Available for a variety of majors, we offer full-time internships (in-person or online!) or add a part-time internship alongside your courses.

Discover internship opportunities available by visiting **teanabroad.org/internships**.

COURSES IN ENGLISH UNLESS OTHERWISE NOTED

The following list and chart represents only a sampling of available TEAN programs. To get more information on the programs shown, as well as information on all other program options, go to teanabroad.org/program-finder.

Environment

Featured Programs

AUSTRALIA

Brisbane

University of Queensland (UQ)

- #46 in the world and #17 in environmental sciences
- The UQ St Lucia campus is known for being one of the most beautiful campuses in the world, with a mix of heritage sandstone buildings, modern architecture, sprawling parklands and lakes, and abundant wildlife, making for an unforgettable student experience
- Semester program
- Courses with local degree-seeking students
- Sample Courses: Coral Reefs: Past, Present and Future Outback Ecology Field Studies Environment & Society

Newcastle

University of Newcastle

- Set in a natural bushland setting, close to some of Australia's most beautiful beaches, the campus
 is situated approximately seven miles west of the city and is easily accessible via train, bus, or bike
 from the city center
- The school puts emphasis on protecting the local flora and fauna and has instituted many protected
 habitats making the campus' natural bushland setting an inspiring environment in which to learn
- Semester program
- Courses with local degree-seeking students
- Sample Courses: Coral Reef Biology: Ecology and Sustainability The Sustainable Society Sustainability: Theory and Practice

Townsville

James Cook University (JCU)

- In the top 500 universities in the world, and #80 for environmental sciences
- Opportunity to assist in hands-on research opportunities while on campus at JCU
- JCU is a leader in academic research focusing on the tropics, and students can take advantage of its
 proximity to rainforests, the dry savannah, and the Great Barrier Reef
- Semester program
- Courses with local degree-seeking students
- Sample Courses: Introductory Marine Science Coral Reef Geomorphology Coastal, Estuarine and Mangrove Ecosystems

NEW ZEALAND

Auckland

University of Auckland

- #1 school in New Zealand, top 100 in the world, and #92 in environmental sciences
- Scholarship opportunity (up to \$2,000) for students majoring in a field related to environmental science/management or sustainability who enroll in two classes relating to the environment or sustainability
- Several upper-level biology courses offer a field trip or field work as part of the course
- Semester program
- Courses with local degree-seeking students
- Sample Courses: Dynamics of Marine Systems Pure and Applied Entomology Planet Earth

Christchurch

Lincoln University

- Known as New Zealand's specialist land-based university, Lincoln is situated on a 124-acre campus less than 30 minutes from the center of Christchurch
- Lincoln University's mission is to help feed the world, protect the future, and live well with a focus on sustainability
- Semester program
- Courses with local degree-seeking students
- Sample Courses: Maori Environmental Management Social and Environmental Ethics Introduction to Earth and Ecological Sciences

Dunedin

University of Otago

- The University of Otago is New Zealand's most research-intensive university and is the country's top-ranked university for research quality
- Students interested in field studies should consider geology and ecology studies at Otago
- Situated on New Zealand's pristine South Island, known for its incredible hiking and outdoor adventures and sports
- Located on the edge of the Botanic Gardens, the Otago campus enjoys a stunning location, with the local river, the Water of Leith, winding its way through campus
- Semester program
- Courses with local degree-seeking students
- Veritas Christian Study Abroad available
- Sample Courses: Destination Management Environmental History of New Zealand Evolution of New Zealand Biota
