Why just read about different ecosystems and natural features when you can experience them yourself?

A study abroad experience allows you to discover the natural environment of your host destination and how the local community engages with their surroundings.

Whether you are looking for summer programs specifically designed around environmental studies coursework and experiences, or you are seeking courses through our host university partners that introduce environmental issues from a different cultural perspective, TEAN has a suite of programs designed to meet your academic goals.

Push your engagement with environmental learning and awareness even further by choosing to participate in TEAN's [Choose Earth Micro-Credential](#) program!

Are you looking for specific courses? Visit teanabroad.org/course-finder and we can help you find the program that meets your academic goals and course needs.

Get hands-on experience abroad

An international internship through TEAN can help you stand out in the increasingly competitive job market. Available for a variety of majors, we offer full-time internships (in-person or online!) or add a part-time internship alongside your courses.

Discover internship opportunities available by visiting teanabroad.org/internships.

COURSES IN ENGLISH UNLESS OTHERWISE NOTED

The following list and chart represents only a sampling of available TEAN programs. To get more information on the programs shown, as well as information on all other program options, go to teanabroad.org/program-finder.

Environment

Featured Programs

AUSTRALIA

Brisbane

[University of Queensland \(UQ\)](#)

- The UQ St Lucia campus is known for being one of the most beautiful campuses in the world, with a mix of heritage sandstone buildings, modern architecture, sprawling parklands and lakes, and abundant wildlife, making for an unforgettable student experience

- Semester program
- Courses with local degree-seeking students
- **Sample Courses:** Planet Earth: The Big Picture • Ecology, Culture, and Field Research • Environment & Society

Newcastle

[University of Newcastle](#)

- Set in a natural bushland setting, close to some of Australia's most beautiful beaches, the campus is situated approximately seven miles west of the city and is easily accessible via train, bus, or bike from the city center
- The school puts emphasis on protecting the local flora and fauna and has instituted many protected habitats making the campus' natural bushland setting an inspiring environment in which to learn

- Semester program
- Courses with local degree-seeking students
- **Sample Courses:** Coral Reef Biology: Ecology and Sustainability • The Sustainable Society • Surviving the Anthropocene: Sustainability in the 21st Century

Perth

[Murdoch University](#)

- The largest university campus in Australia, Murdoch is surrounded by the outback with quick access to city life and beaches
- The Tropical Marine Biology summer program offers a short-term, intensive focus on Australia's marine habitats and coral reef ecosystems

- Semester or summer programs
- Courses with local degree-seeking students
- **Sample Courses:** Marine Botany • Environmental Crisis in Australia and its Region • Tropical Marine Biology

AUSTRALIA

Townsville

James Cook University (JCU)

- Opportunity to assist in hands-on research opportunities while on campus at JCU
- JCU is a leader in academic research focusing on the tropics, and students can take advantage of its proximity to rainforests, the dry savannah, and the Great Barrier Reef

- Semester program
- Courses with local degree-seeking students
- **Sample Courses:** Introductory Marine Science • Coral Reef Geomorphology • Coastal, Estuarine and Mangrove Ecosystems

NEW ZEALAND

Auckland

University of Auckland

- One US \$5,000 Choose Earth scholarship is available each semester. The applicant must be majoring in or have an interest in environmental science/management or sustainability and be studying for a semester abroad at the University of Auckland.
- Several upper-level biology courses offer a field trip or field work as part of the course

- Semester program
- Courses with local degree-seeking students
- **Sample Courses:** Dynamics of Marine Systems • Air Quality and Atmospheric Processes • Planet Earth

Dunedin

University of Otago

- The University of Otago is New Zealand's most research-intensive university and is the country's top-ranked university for research quality
- Students interested in field studies should consider geology and ecology studies at Otago
- Situated on New Zealand's pristine South Island, known for its incredible hiking and outdoor adventures and sports

- Semester program
- Courses with local degree-seeking students
- Veritas Christian Study Abroad available
- **Sample Courses:** Destination Management • Environmental History of New Zealand • Evolution of New Zealand Biota

THAILAND

Bangkok

Mahidol University

- Explore Thailand from the northern town of Chiang Mai to the stunning tropical coastline in southern Krabi

- Semester program
- Courses through the international school taught in English with other international and local students
- **Sample Courses:** Freshwater Ecology and Conservation • Marine Ecology and Conservation with Practical • Fungal Ecology
